

Floor Plates (FP) – floor/guard plates.

Introduction:

Cold Rolled Stainless Steel sheets with various base finishes, and Deep stamping patterns.
Great product to substitute Aluminium Diamond plates, and more.

Base finishes:

N4 Satin, Hairline(HL), Vibration(VIB), ArtBrush(ARBR), N8 Mirror.

Size range: 1.0 / 1.2 / 1.5 / 2.0mm. x 4' (5')W x 8'(10')L

We can also supply in Custom size prefabricated panels/plates, with flat margins on all sides.

Grades: AISI 430, AISI 304, AISI 316

Advantages and properties of FP plates

Stainless Steel Floor plates have their obvious advantages over popular Aluminium Diamond plates:

High strength and ware resistance, high melting point (Fire safety), corrosion resistance, hygienic, various stamping patterns and base finishes to suit Designer's taste.

Applications:

- 1) Non skid Floor Plates
- 2) Elevator Cabin Floor
- 3) Stair systems, Ramps, Platforms, Cross-Over, etc.
- 4) Kick plates for Doors
- 5) Steps, Wall, Corner - guards
- 6) Truck Bed, Fenders and Trims for Trailers, Trucks, and commercial vehicles
- 7) Tool boxes
- 8) Decoration & Floor Pates of Boats and Ships (AISI 316 grade)
- 9) Techno-style decoration of Reception tables, Bar counters, Wall panels, Columns, etc.
